

(RED) demonstrates the collective power of consumers to fight a preventable, treatable disease, AIDS. Founded by Bono and Bobby Shriver in 2006, (RED) was created to deliver a sustainable flow of money from companies to the Global Fund, to further the AIDS fight. It also generates awareness around the disease to keep it on the public agenda. In the ten years since its founding, (RED) has generated more than \$360 million for the Global Fund, and 100% of that money has gone to finance HIV/AIDS programs on the ground in Africa.

HOW (RED) WORKS

AIDS FREE GENERATION

Red represents the passion we and every (Vespa 946)RED owner has for bringing an end to AIDS. Vespa and (RED) have partnered to travel together toward a world where no baby is born with HIV. It's the realization of our first AIDS Free Generation in over 30 years.

CARING

For each (Vespa 946)RED sold, \$150 will be donated to the Global Fund to fight AIDS with (RED). That's enough to provide more than 500 days of life-saving HIV/AIDS medication in sub-Saharan Africa. That same medication prevents a mother living with HIV from passing the virus to her unborn child.

SEDUCTION

Red symbolizes the attraction that grows over time. Vespa 946 tells the story of the evolution of a style, the meeting with the modern world, the creation of new lines that enhance the elegance of the original design. Hand crafted and futuristic, Vespa 946 tells the story of our best past and renews it in aesthetics, attention to detail and environmental friendliness. (Vespa 946)^{RED} is the new chapter of a great story of beauty, enthusiasm and solidarity.

CULT

Red is the power of a great idea. On display in the permanent MoMA collections in New York and the Triennale di Milano, Vespa is one of the twelve design products that have written a page of twentieth century history. The new (Vespa 946)RED is the latest example of magic and creativity, a new recipe for beauty and anti-conformity, an eternal contemporaneity.
